

LI //// MOTORS AW

Tech Rider 27 Oct 2021

Stage Plan

Venue provide:

Projection setup:

- Screen as big as possible with a bright good quality projector/LED-screen matched to the space, resolution of the projector/LED-screen can be variable.
- Preferred resolution is fullHD (1920 by 1080).

Video distribution:

- (HDMI/DVI/Displayport). No VGA please (it is possible, but not liked).

Audio

- A Live stereo feed of the main sound on XLR (Preferably Line Level of +4dB) at Sunes position
- 2 times dual DI's, one set at Thomas' position and one set at Sunes position.
- Monitors for both Thomas and Sune

Table Space

- We each need enough space to comfortably fit two laptops with mice.

Chairs

- Only if the tables are not standing height

Power

- We each need one phase of 230V SCHÜKO or LK , with a 5 outlet power strips. Power draw from each setup is less than 400W.

LI //// MOTORS AW provide:

Thomas Li
